Cheers—Not Sympathy—

For the Farming Folks!

An editorial we'd frequently like to write but seldom feel equal to is something about the good work the farm folks have been doing in the interests of winning the war and also of winning the peace.

Now, as we look at it, the farmer doesn't choose his work purely from patriotic motives. He works at his job for the same reason that anybody else does, because he needs to earn a living.

Just the same, though, we've sometimes thought there are quite a few rural folks who were deserving of citations during the past few years "for service and beyond the call of duty."

For our part, we've never felt too much called upon to offer any excess sympathy for the farmer.

We figure he doesn't need it any more than the factory or office worker, or the service man in the field.

Sure, he works hard, puts in long hours, and has to keep his nose to the grindstone, figuratively speaking. At the same time, he has pretty interesting work, with lots of variety. He has to be about everything, from an amateur veterinarian to a mechanic, from an accountant to a carpenter, from a capitalist to a day laborer.

At the same time, although his life is tiring and frequently exasperating, it is (believe it or not!) seldom dull. The unexpected is always happening on a farm, and sometimes it happens several times in succession.

A farmer is more of a gambler than a stock market plunger is. He gambles on the weather, he gambles on his own ability, on the probable market value of his crops and cattle, on whether or not his machinery will hold up for another season or break down right away, and on innumerable other things during the course of a day, week, month or year.

What city folks think is a farmer's stolidity or placidity just ain't so—it's just the professional gambler's famed "poker face."

No, we don't feel sorry for the farmer on account

of his dull life—we just admire the fact that he is able to make a living the hard way.

And once in a while we kind of envy him. Especially since rationing.

Danger Ahead in Driving!

Worn out cars plus post war psychology combine to make a dangerous driving situation in the months ahead according to a warning issued today by Charles M. Hayes, President of the Chicago Motor club.

He says: "when V. J. Day arrives several million fighting men, accustomed to the danger of Anzio, the Belgian Bulge and Okinawa, will be back behind the wheel. Civilian motorists who have been restricted by rationing and other regulations will find themselves unhampered by such restrictions. Many drivers will discover they are out of practice and no longer used to handling an automobile. And the cars which last through the war will be old and deteriorated."

"This is a deadly combination!"

"Will the lifting of wartime restrictions, combined with the exhilaration and release from strain following the victory, result in an epidemic of unprecedented highway massacre?"

"Accident statistics show that the number of fatalities in automobile injury accidents increases tremendously with increases in speed. At 20 miles an hour there are 12 fatalities in each 1,000 injuries. But at 51 miles an hour and over there are 92 deaths—nearly eight times as many. Evidence of this was demonstrated when the national speed limit of 35 miles an hour was made effective. Traffic deaths dropped 43 per cent."

"We are faced with the prospect of breaking our own pre-war high fatality records in an unequalled traffic carnage—if we do not work today for the future traffic safety."

Two recent news stories have made quite an impression on our minds.

One told of an attack on a brightly lighted Red Cross marked U. S. hospital ship by a Japanese suicide plane.

The other related how a United States ship suffered a Japanese hospital ship to proceed on its way, evacuating a cargo of sick Japs from Wake island, after first searching it to make sure that it was not evacuating able-bodied personnel.

The question that's been going through our mind in connection with the above is, are we more humanitarian than the Japs—or just more practical, in the long run?

pital, Denver, Colo., after spending a 15-day furlough with his parents, Mr. and Mrs. Charles Soper of Soper's Spa, highway 173, and with relatives in Michigan.

His brother-in-law, Richard Smykal, the contractor who built the Spa, is now a colonel and is stationed in Kunming, China, as assistant chief-of-staff to Gen. Albert Wedemeyer, it was bought out in a conversation in the News office Monday between Cpl. Soper and Cpl. Harold E. ("Heine") Ellis, who also helped to build the Spa. Col. Smykal was previously with Gen. Joseph Stilwell in Burma.

Cpl. Soper's wife is Col. Smykal's sister, Edna.

Lt. E. Kitchen, Libertyville, falls heir to Soper's copy of the Antioch News when he has finished reading it, he reports. Lt. Kitchen is his assistant C. O. at Bushnell.

NO ENEMY BOMBS ON
AMERICAN FARMS—

BUT

THERE WERE OVER 17,000
FATALITIES ON THE FARM
FRONT LAST YEAR

Don't Gamble! These safety tips may save you from serious injury—may even save your life!

1. Don't wear loose, floppy clothing working around machinery.

2. Do stop machinery before attempting to make repairs.

3. Don't handle animals unless you know the proper methods.

4. Do put tools away. They'll serve you better—save you trouble.

5. Don't smoke around barns. Farm fires cost \$90,000,000 annually.

6. Do apply first aid immediately. Keep a first aid kit handy.

NATIONAL FARM SAFETY WEEK JULY 22-28

If you are an inexperienced hand, an older man, or a woman, patriotically helping to fight the battle on the food front, it will be wise to remember that farm work can be dangerous work—that you may suffer a serious injury, or even the loss of life—unless you are careful.

The Careful Farmer's Work Is Healthful, Interesting and Safe! Fortunately, much of the danger in farm work can be eliminated by the individual farm worker. By taking a few simple, precautionary measures—by being careful . . . you make your very important contribution to the war effort without risk of injury to yourself or others.

Warning! Most farm accidents are traceable to nothing other than carelessness—to "chance-taking." The worker who doesn't bother to "make sure", who "guesses" that he'll be safe enough, is the one who gets seriously injured. It's just good common sense to make safety a year 'round rule so that your life, your farm, and your future will be protected.

ONE-TWO-THREE-FOUR-FIVE-SUGGESTIONS

...to help you make
better use of your NEW
Telephone Directory

WE TRY to make your telephone directory accurate and complete. These five suggestions, if followed, will increase its usefulness.

- 1 Be sure to discard your OLD telephone directory if it was not collected when the new one was delivered. (Don't destroy it—turn it over with other waste paper to your regular collector.)
- 2 If you have a memo list of numbers called frequently, verify these numbers now by looking in your NEW directory.
- 3 Always consult the directory when not sure of the number.

Calling from memory is a common cause of wrong numbers.

- 4 Look in your directory—don't ask "Information" for numbers listed there. This avoids making two calls instead of one.
- 5 Use the "Classified" section (yellow pages in most directories) to locate wanted products, services or professional help—especially important now that substitutes must be found.

Mrs. Loren Rogers and son, Michael, left today for their home in Chetek, Wis., after spending the past week visiting Mrs. Rogers' parents, Mr. and Mrs. Earl Horton, and other relatives here. Mr. and Mrs. Albert Horton, Grayslake, enjoyed a visit with them Sunday. On Monday, Mrs. H. F. Beebe and daughter Edith, Grayslake, called on Mrs. Murray Horton, and Mrs. Roy Pierce was also a visitor. Guests Monday at the Horton residence included Mrs. Bernard Schneider, Lake Villa, and Mrs. Leo Keisler and children Janice and Lance. On Tuesday Mrs. Arland Clark, Kenosha, granddaughter of Mrs. Murray Horton, called on her.

Mr. and Mrs. S. J. Handley had as guests during the weekend Mr. and Mrs. Rich and George Handley, all of Chicago.

Mrs. Eleanor Zajicek is out from Oak Park to spend the season at her summer home on Lake Marie.

Library News

A 12-volume set of reference books, compiled especially for the use of children, has been purchased by the Antioch Township library. This set, the Britannica, Jr., is designed to meet the needs of the younger student.

"World War II," by Major Frank Monaghan, M. A., Ph.D., is a fascinating illustrated history of the world between wars. The causes of the present war are discussed in an entertaining journalistic style. Major Monaghan figured prominently in the outstanding radio series, "Cavalade of America," of which he was historical director.

"A Lion is in the Streets" by Adria Langley is deservedly a best seller. The political career of Hank Martin is not only exciting reading, but it also brings a warning to the American people.

"The Wayfarers," by Dan Wickenden, is a vitally significant novel of the American family. It is a Literary Guild selection and a noteworthy successor to Wickenden's earlier novels, "The Running of the Deer" and "Walk Like a Mortal."

A new Ellery Queen mystery, "The Murderer is a Fox," will please mystery story fans.

ARMAND DALGAARD IS COMMENDED FOR RADAR EXPERIMENTAL WORK

A carbon copy has been received on the following:

"Commendation of Sgt. Armand Dalgaard and Pfc. Ralph Wolf on DS at Kingman AAF.

"To the Commanding General AA-ATC Fort Bliss, Tex.

"During the past four months, a radar unit of which the above named enlisted men were part was attached on DS to Kingman AAF Altitude Training unit, for the purpose of participating in an experimental study conducted by Wright field and Kingman AAF of the opening shock of parachute escape from high altitudes, as well as of newly designed automatic parachute opening devices using radar to track open parachute and free fall descents.

"The undersigned officer wishes to commend highly the above-named enlisted men for their skill and diligence in mastering a difficult problem.

"Using their radar equipment, these men successfully tracked dummies and metal spheres that were

dropped by free fall from an altitude of 40,000 feet with automatic devices that opened the parachutes at 5,000 feet elevation.

"This was only the second time that such a tracking by radar had ever been accomplished from 40,000—the only other tracking being that of the freely falling body of Lt. Col. Melvin Boynton, who attempted a free fall jump at Wright field from an altitude of 42,000 feet.

"The assignment was an extraordinarily baffling task which demanded the most level-headed specialists. The Fort Bliss enlisted men, worked together with the greatest care and ingenious planning with little technical supervision, and succeeded admirably in securing hitherto wholly unknown facts concerning the aerodynamic nature of parachute escape from 40,000 feet. Sgt. Dalgaard and Pfc. Wolf demonstrated unusual ability in organizing and operation of a successful technique for operation.

"These men were interested and cooperative and it was a pleasure to

work with and have them in the unit.

—Ross C. McCordle, Major, AC, Chief, Altitude Training and Personal Equipment."

Wesley Reeves, Jr., left Tuesday for service with the navy.

WORKERS NEEDED TO CARE FOR VETERANS

Government hospitals, including those of the army, navy and Veterans' Administration, are in urgent need of an army of civilian attendants to provide care for the sick and wounded service personnel back from the battle fronts.

Announcements to this effect are being distributed throughout Illinois and Wisconsin by the U. S. Civil Service commission. The additional help is needed for hospitals in this area. Laborers are also needed to take care of hospital grounds and maintenance of hospital buildings.

Approximately 100 attendants are

needed at the U. S. Naval Training center, Great Lakes.

Interested persons are requested to make application at U. S. Employment Service offices in the vicinity of the hospitals, at the regional office of the U. S. Civil Service, 433 West Van Buren street, Chicago 7, Ill., or at any first or second class post office. Persons already engaged at their greatest skill in essential war work should not apply, it is announced.

Fred J. Zilke, AMM 1/c, arrived here last week for a two days' visit enroute from Daytona Beach, Fla., to San Diego, Calif.

Next Sale at our premises 2 miles North of Bristol, 10 miles West of Kenosha on Highway 45 on

FRIDAY EVENING, JULY 20, at 7:30 O'CLOCK Sharp

We will have around 50 HEAD OF CATTLE—some Choice Holsteins, Guernseys, Some Swiss Cows with Calves by side and a good many Close Springers.

We will have a fine bunch of Holstein Heifers to Freshen in the Fall and Early winter, a few good Young Bulls.

We also expect a Herd of White Face Cows. If you want to go into the Beef Raising Cattle this will be your chance.

We will have around 25 well broke Saddle HORSES here—a horse for every need.

Last Sale some wanted to see these Saddle Horses ridden before sold. So if you wish to ride them yourself or see them in the Saddle on the turf be on hand by 6:30 and you can see them all ridden or ride them yourself.

We will have a few good work HORSES—get them now for Thrashing and Silo Filling.

There will be some FARM MACHINERY brought in and will have some Saddles and Bridles which are hard to get.

REMEMBER—rain will not stop this sale as we sell inside and have plenty of light.
